- b. If two or more teams are tied after match w/l, move to Tie Breaking Procedures

6.3. Tie Breaking Procedure

If two or more teams, within a pool, are tied at the end of pool play, the following criteria will be applied, in order, until all ties are broken and all tied teams ranked. This means that if there is a tie among teams X, Y & Z and criteria b) is able to determine X as first, Y as second and Z as third, then no further criteria is needed. However, if criteria b) determines X as first (or third) and there is still a tie between Y & Z, then the ranking of the remaining teams will be determined by proceeding to criteria c) and so on, if necessary. Continue through the sequence of criteria and DO NOT start at a) again.

- a. The team having the best ratio of won/lost matches, considering matches played between the tied teams, will be ranked higher.
- b. The team having the best ratio of won/lost sets, considering matches played between the tied teams, will be ranked higher.
- c. The team having the best ratio of won/lost sets, considering all matches of the round, will be ranked higher.
- d. The team having the best ratio of points for/against, considering matches played between the tied teams, will be ranked higher.
- e. The team having the best ratio of points for/against, considering ALL matches played during the round robin, will be ranked higher.
- f. A coin toss by the tournament director and head official in the presence of team representatives.

Note: For criteria (d) (e) and (f) only, after the sequence of (a), (b) and (c) have been followed.
